

## Lack Of Screen Output Problem's Solution While Developed A C/C++ Project With Eclipse IDE

If you develop a C or C++ project by using **Eclipse IDE**, the screen output may not be seen. In such a case, add following code snipped on top of the **main** function:

```
1 | setvbuf(stdout, NULL, _IONBF, 0);  
2 | setvbuf(stderr, NULL, _IONBF, 0);
```
